TECHNICAL SKILLS

R, Python, C#, SQL, UML

TECHNICAL PROJECTS

Top Games On Google Play Store - [Code](#)

A machine learning project with its report.

- Developed a project where I forecasted game ratings on Google Play Store
- Developed using R.
- Plots and other visualization techniques of R are used before analysis.
- Random Forest Model and Multiple Regression models are used.
- The most important attributes for application ratings are analyzed.

Web Accessibility Analysis - [Code](#)

Project about analyzing the website accessibility scores.

- Developed an analysis project using R where I interpreted the accessibility scores of websites.
- Accessibility results of the 3 types of websites are collected from another tool.
- Created the "accessibility score" dataset for this analysis.
- Worked with another developer as a team.

Labor Force Survey Analysis - [Code](#)

Labor Force Survey from Istanbul Analysis.

- Analysis using survey results from TUIK about labor force.
- Data visualization and other regression models are created using R.
- Mainly focused on finding answers for gender-based wage inequality.
- Created output of the analysis using RMarkdown.

EMPLOYMENT HISTORY

[ECOSERV](#), Istanbul, Turkey

IT intern, *January/2020 - February/2020*

- Worked as an IT intern at the ECOSERV (A company of Maintenance & Repair services for facilities). I have worked with their IT system Integro.
- Interviewed the employees and prepared a survey for them to improve the information system in the future.
- Helped programmers and systems analyst test, debug and improve new ERP programs.

[Zeynar Textile](#), Tekirdag, Turkey

IT Intern, *February/2021 - March/2021*

- Worked on IBM i Series AS400 ERP systems with the IT department. I learned the administration and development processes of this system.
- Completed inventory control tasks in the field and on the system.
- Handled computer system troubleshooting and provided technical support to the entire team for computer operations.
